High Security Padlocks

334 Series High Security Brass Case Padlocks with Rapid Change Shackle

The Lockwood High Security 334 Series Brass Case Padlock range features shackles designed for high security and high corrosion applications.

Suitability

- Commercial and industrial applications

Features and Specifications

- Heavy duty, solid brass case extrusion
- High corrosion resistant 8.7mm boron steel rapid change shackle
- Rapid change function allows the release of the shackle by turning the key and depressing the pin
- Double ball locking
- Extended shackle models
- Stainless steel shackle models
- Standard as latching function
- Can be converted to deadlocking (key retained) by simply relocating the cam plate pin in the cylinder assembly

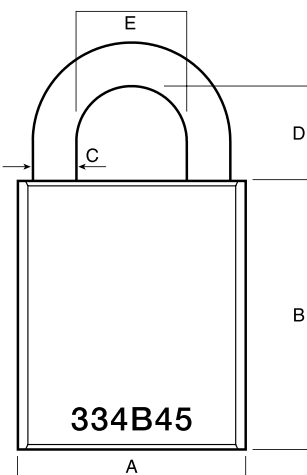

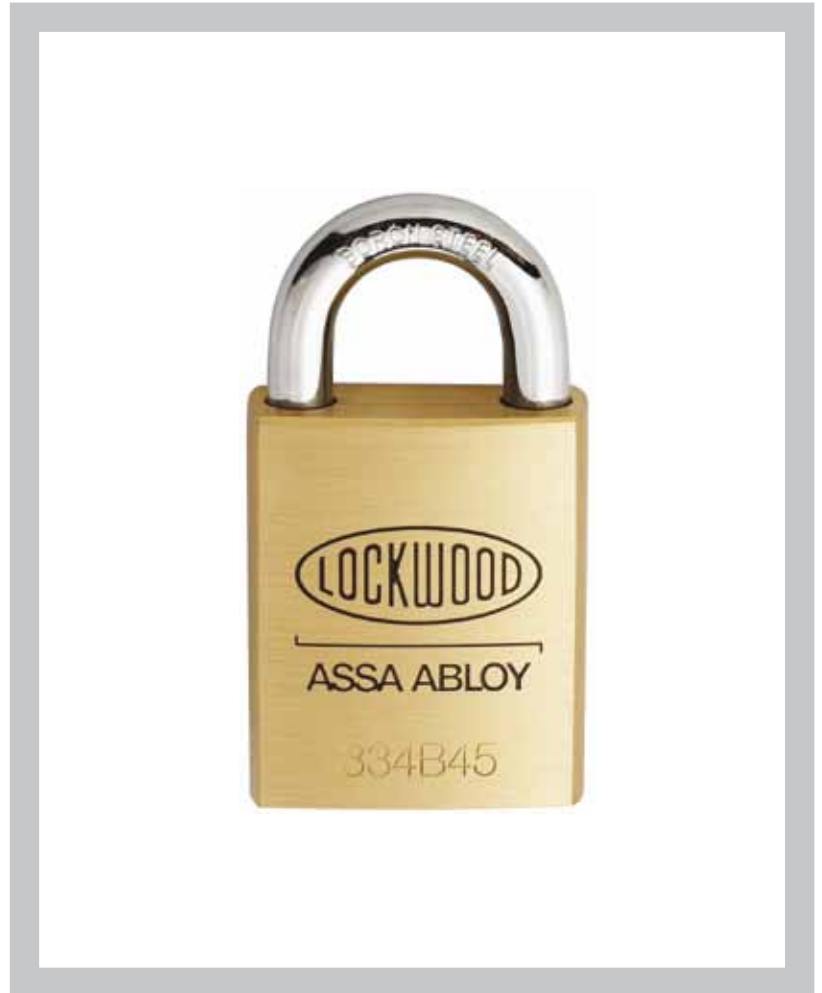

Cylinders

334 top loaded cylinders are rekeyable in standard 5 pin with 6 pin capability (nickel silver keys with 6 pin padlocks).

334 cylinders are preloaded with one length top pins and stainless steel pin springs using a Lockwood 570 barrel.

Custom Marking

Custom marking is available. Pricing and availability on application.
